notification *vis-a vis* the best practises in several countries, the Ministry of Environment and Forests has identified integrated coastal area regulation and management as preferred approach for the protection of the coast-line. This approach was recommended in a Workshop on "Strategy for Sustainable Development in the Coastal Area" held in Delhi from November 1st to 3rd, 1999. A proposal on Integrated Coastal Zone Management Plan was submitted by the Ministry of Environment and Forests to World Bank for assistance under the ongoing Environmental Management Capacity Building Project.

The proposed Integrated Coastal Zone Management Plan preparation shall be carried out in three stages as follows:

(i) Mapping of Coastal Cells of the entire coast of India.

(ii) Preparation of Shore Line Management Plans for four risk zones identified in Stage (i).

(iii) Preparation of Integrated Coastal Zone Management Plans for the four identified risk zones.

Further, the Ministry of Environment and Forests provides assistance to coastal States and Union Territories for mangrove plantations to enrich existing mangrove areas and for coastal shelter belt plantations in order to minimise environmental damage and loss of life and property due to natural calamities.
